### **RADWIN Subscriber Units, SU PRO Model**

Subscriber Unit - Data Sheet (RW5000/SU-Pro/5C01/F54/ETSI/EXT)

RW-5C01-2P54

## **Product Description**

RW-5C01-2P54 is SU PRO Model, subscriber unit that delivers up to 250 Mbps net aggregate throughput and supports SLA (CIR) or Best-Effort service level.

Can be used in a P2P configuration SU PRO supports 5.4 to 5.8 GHz and complies with ETSI regulations.

The radio is connectorized for external antenna (2 x N-type).

# **Product Highlights**

- Up to 250 Mbps net aggregated throughput
- Long range Up to 40 km / 25 miles
- Guaranteed Service Level Agreement based on CIR or Best Effort Service level
- Short and constant latency
- Advanced MIMO, OFDM and Antenna Diversity
- Robust and reliable operation in harsh environmental conditions including obstructed line-of-sight scenarios
- IP-66
- Simplified installation using a Smartphone app.

# **Product Specifications:**

| Configuration                              |  |   |                  |                  |  |
|--|--|---|------------------|------------------|--|
| Architecture                               | Outdoor Unit connectorized for external antenna (2 x N-Type)   |   |                  |                  |  |
| PoE to ODU Interface                       | Outdoor CAT-5e; Maximum cable length: 100m for 10/100BaseT and 75m for 1000BaseT                         |   |                  |                  |  |
| Radio                                      |  | ,   |                  |                  |  |
| Max Capacity                               | 250 Mbps net aggregate throughput; Upgradable to 500 Mbps with license key                               |   |                  |                  |  |
| Range                                      | Up to 40 km / 25 miles *   |   |                  |                  |  |
| Channel Bandwidth                          | Configurable: 10, 20, 40, 80 MHz (for the default band); Dynamic Channel BW selection (20/40/80 MHz)     |   |                  |                  |  |
| Modulation                                 | MIMO-OFDM (BPSK/QPSK/16QAM/64QAM/256QAM)   |   |                  |                  |  |
| Adaptive Modulation & Coding               | Supported  |   |                  |                  |  |
| Automatic Channel Selection                | Supported upon power up  |   |                  |                  |  |
| DFS  | Supported (ETSI)   |   |                  |                  |  |
| Diversity                                  | Supported  |   |                  |                  |  |
| Max Tx Power                               | 26 dBm per chain; max EIRP 30 dBm (for the default band)   |   |                  |                  |  |
| Duplex Technology                          | TDD  |   |                  |                  |  |
| Error Correction                           | FEC k = 1/2, 2/3, 3/4, 5/6   |   |                  |                  |  |
| Encryption                                 | AES 128  |   |                  |                  |  |
| Support Indoor units                       | RADWIN PoE devices (9921-102X, included in the package)  |   |                  |                  |  |
| Uplink / Downlink Allocation               | Configurable: Symmetric or Asymmetric  |   |                  |                  |  |
| Layer 2                                    | HUB Mode   |   |                  |                  |  |
| QoS  | Packet classification to 4 priority queues according to 802.1P or Diffserv                               |   |                  |                  |  |
| VLAN Support                               | 802.1Q, QinQ, 4094 VLANs   |   |                  |                  |  |
| ODU Management                             | IPv4/IPv6 dual-stack; SNMPv1, SNMPv3; HTTP/HTTPS using web browser                                       |   |                  |                  |  |
| 802.1x                                     | Supported  |   |                  |                  |  |
| Option 82                                  | Supported  |   |                  |                  |  |
| Non PPPoE filtering                        | Supported  |   |                  |                  |  |
| DHCP Filter                                | Supported  |   |                  |                  |  |
| IGMP snooping                              | Supported  |   |                  |                  |  |
| Nomadic subscribers                        | Supported  |   |                  |                  |  |
| RADIUS Authorization                       | Supported  |   |                  |                  |  |
| RADIUS User authentication                 | Supported  |   |                  |                  |  |
| Syslog                                     | Supported  |   |                  |                  |  |
| Supported Bands                            |  |   |                  |                  |  |
